Excellent! Highly Recommended! Sean Mattingly provided graphic design services for me for a high quality Ad that I needed in a short amount of time. I have never used Thumbtack before and I did not know what to expect. Sean's work was excellent and I will use Thumbtack again. I highly recommend Sean. The final work product was beautiful. I received quotes from other designers and Sean's prices were low, reasonable and fair. Most importantly, it was a pleasure working with Sean. He is knowledgeable, responsive, and professional. From start to finish, the process went smoothly. Sean keeps you informed, explains each step, answers questions and is receptive to your ideas and input. He works very hard and produced his work product very quickly. I could not be more pleased. I will definitely use Sean for any future projects.

Sean did an excellent job on our flyers and business cards. He paid close attention to detail and delivered on everything that we asked for. He also offered his suggestions and advice on how to make the cards and flyers look better and be more informative. He stayed in contact with us on a regular basis to keep us updated on the progress of everything and delivered them in a timely manner. We were really happy with the end products and his prices are very competitive as well. We definitely plan on using him again for future projects.

I had Sean perform some technical work for me. It was computer related and I had limited ability in performing the task. Sean demonstrated the program to me and showed me how to properly operate it. He showed me how to efficiently use Publisher and Indesign. It worked out well so far and I would definitely use his services in the future.
